

## Guardian Audio® Articulated Line Array Series

### Guardian Audio® Articulated Line Array Series

Guardian Audio articulated line array series speakers are specially designed to solve problems for production crews and installers for any venue. The high pass cabinets can be run in passive or bi-amp mode, allowing for easy setup and maximum control. The proprietary horn design uses three highly efficient titanium drivers with neodymium magnets.

Model	Woofers	HF Driver	RMS Power	Sensitivity (1w/1m)	Frequency Response
LA210	2 x 10"	3 x 1"	400 Watts	108dB	60Hz~18kHz
LA212S	2 x 12"	N/A	500 Watts	110dB	40Hz~500Hz
