

## Guardian Audio® Pro Series Speakers

Guardian Audio® Pro Series speakers are constructed with plywood for exceptional sound quality and durability. Various finishes make them a great choice for production, permanent installation or any venue that requires a highly efficient speaker system. The internal crossover incorporates a lamp fuse for superior speaker protection. Many of the Pro Series have rotatable horns and multi-angle cabinets making them suitable for main front of house system or for use as floor monitors.

The P12 and P15 speakers have steel grills covered with acoustic foam for more aesthetic appeal. The reinforced fly points expand installation possibilities. The S8 and P28 include a “U” mounting bracket. The P10W is made with high density fiberboard.

Model	Woofer	HF Driver	RMS Power	Sensitivity (1w/1m)	Frequency Response	Dispersion
S8	8"	1"	110 Watts	97dB	52Hz~20kHz	60° x 60°
S8W	8"	1"	110 Watts	97dB	52Hz~20kHz	60° x 60°
P28	2 x 8" cast	1" T	240 Watts	102dB	50Hz~20kHz	60° x 45°
P28W	2 x 8" cast	1" T	240 Watts	102dB	50Hz~20kHz	60° x 45°
P12	12"	2" T	400 Watts	102dB	55Hz~20kHz	100° x 90°
P15	15"	2" T	500 Watts	102dB	50Hz~20kHz	100° x 90°
