

Powered Consoles

Guardian Audio® Powered Mix Consoles are an excellent combination of simplicity and professionalism. Armed with 60mm faders, 16 digital effects and up to 650 watts of power, these mixers are a great choice for any application.

Model	True Channel Count	Power @ 4 Ohms	Faders	Features
PM16	16	325 watts +325 watts	60mm	3 band channel EQ with mid sweep, stereo 7 band graphic EQ, 16 digital effects, PFL and mute switches
PM12	12	325 watts +325 watts	60mm	3 band channel EQ with mid sweep, stereo 7 band graphic EQ, 16 digital effects, PFL and mute switches
PM8	8	325 watts +325 watts	60mm	3 band channel EQ with mid sweep, stereo 7 band graphic EQ, 16 digital effects, PFL and mute switches

From House of Worship to clubs, from permanent installs to touring bands, we offer a powered console mixer for your needs. At Guardian Audio® we use TCC, True Channel Count. For example, the channel count on the PM16 is 16. There are 16 mic preamps, each with it's own fader and controls.
